

MicroSurvey CAD 2010 Training

Fee/Tuition: \$1200 per person

MicroSurvey will be holding a 4 day training session on MicroSurvey CAD 2010 in MicroSurvey's hometown Kelowna, British Columbia during February 21 to 24.

The training session will cover basic and advanced features of MicroSurvey CAD 2010. The course is taught by Lee Morden, a Registered Alberta Land Surveyor and Geomatics Instructor at Northern Lights College.

MSCAD Ultimate Seminar

Fee/Tuition: FREE

A free seminar will be held on February 25 for all interested participants to help users understand the capabilities of MicroSurvey CAD Ultimate. The seminar will be led by James Johnston, Director of Technical Support and Training at MicroSurvey. Topics to be covered will include:

Theory:

- An introduction to the PointCloud work environment.
- Using PointCloud snap settings, manipulator tools and reference planes
- Using Grid Survey to filter undergrowth from scan data
- Adding linework from scan data to a CAD Drawing

Hands on Projects:

- Making sense of tunnels
- Creating topography from lidar data
- Stockpile volumes

MicroSurvey Advanced Modeling operations:

- Surface exaggeration and other surface analysis operations
- Advanced Configuration Options
- Creating "Isopach" maps from borehole data
- Volume computations
